Math Observations

Measurement & Data

M.MD.11 • Ordering

Date: _____

ITEM: Puts a set of objects in order according to measurable attributes (e.g., shortest to tallest)	How Often?			If *not yet* or *sometimes*, child struggles with….					Notes
Child Name	Always/most of the time	Sometimes	Not Yet	Identifying attributes	Understanding -er vocabulary	Understanding -est vocabulary	Verbalizing	Something else	

- **If *always* or *most of the time***, ask children to identify the object that is missing in a set or ordered objects; ask children to sort by a new attribute (e.g., lightest to darkest color).
- **If *not yet***, revisit counting basics; use smaller sets (e.g., 3) objects that are clearly distinct in the target attribute.
