

Celebrating Our Classroom Community

Dear Families,

We are creating a class book called *We Like School* in which children share their favorite things from school. To support this work, please talk to your child about their memories of this school year. Look through any photographs you have of your child from this year. Look at any work samples that you saved. You might ask some of the following questions to help generate ideas and jot down what your child says. Send this information back to school in order to help your child be prepared to share, draw and/or write about this topic.

- What was one of your favorite things you did in school this year?
- What was one of your favorite things to learn about?
- What was one of your favorite parts of your school day?
- What was one of your favorite spaces in your classroom?
- What was one of your favorite things to do on the playground?

Thank you for your support!
